

Revolutionising class action payments

How do you handle payments?

If you're still limited to internal payment restrictions, cheques or other manual processes for handling class action payouts, stop right there. There's a better way to work. You can automate the time-consuming verification, payment processing and keep things simple and secure.

Shieldpay can help reduce your risk and administration. Our quick and simple set up process, automated verification and authorised payout process, help free up your time and award claimant payments safely.
